MALMO™ LUXURY VINYL FLOORING

The smart design of Malmo™ luxury vinyl flooring brings beauty and elegance to any space, without compromising on functionality. Hardwearing and durable, it is resistant to indentations, will not chip or crack, is incredibly low maintenance, and can even be installed over water piped underfloor heating systems.

The range offers two installation methods across three collections: Rigid Senses, Rigid Comfort, and Stickdown Freedom. Comfort offers a fast and easy to fit click system with built in underlay; the award-winning Senses Collection features all the benefits of Comfort but also a registered embossed surface that perfectly recreates the authentic look and feel of wood; and Freedom is ideal for use in conservatories, new builds and commercial areas.

Malmo™ is available across plank, multi-width plank, herringbone and tile effects, with a colour palette that includes classic oak through to on-trend greys and Moroccan tile effects - all in a contemporary matt finish. Competitively priced without compromising on performance, Malmo™ offers a stylish solution suitable for a wide variety of high-end commercial and domestic applications. With a warranty of up to 25 years for residential applications and 10 years for commercial use, quality is always guaranteed.

Rigid

Malmo™ Rigid vinyl flooring is fast and easy to fit, so perfect for DIY installation. It has a 1mm underlay already attached to eliminate the cost and fuss of installing it separately - and its Välinge 5G click installation system makes fitting simple even in tight spaces, with push down end joints which are extra secure and stable. Choose from two fantastic collections:

Senses

Malmo™ Senses Rigid Registered Embossed Plank replicates the look and feel of real wood like never before. With the texture perfectly in line with the visual pattern of the woodgrain, it combines the beauty of wood with the durability and easy installation of Rigid vinyl. In particular, the innovative multi-width plank designs create the look of randomly sized pieces but with the convenience of fitting standard sized planks.

Comfort

The Rigid Comfort collection offers a choice of stylish wide plank, narrow plank and tile formats. The four wide plank designs are available in a 1500mm length - perfect for use in large open plan spaces – whilst narrow planks cleverly create a sense of space in smaller areas. The versatile tile designs are perfect for use in kitchens, bathrooms, hallways and utility rooms.

Stickdown

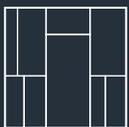

Malmo™ Stickdown Freedom is available across three smart styles – herringbone, plank and tile – all of which combine the beauty of wood or tile with the practicality of vinyl. Boasting a 0.55mm wear layer and 25 year domestic warranty (15 year commercial), it also features an aluminium oxide coating which gives an increased slip resistance of +36 PTV - further increasing its suitability for commercial environments.

Incredibly sound absorbent, Freedom provides the perfect solution for high footfall areas, conservatories, large open plan living areas, commercial environments and areas affected by variations in temperature or direct sunlight – Freedom to use it wherever you like!

Formats

Plank. Our plank designs offer a broad palette of woodgrain shades to perfectly suit any interior - from warm and welcoming living areas, to cool and neutral Scandi shades.

Multi-width. Create the look of random plank widths and lengths, but with the simplicity of installing uniform Rigid planks. To maximise character, the Senses Registered Embossed texture combines with variance of colour to give an authentic reclaimed wood effect.

Herringbone. The Herringbone collection offers classic styling with a smart modern twist. These beautiful designs will transform any interior by bringing character and elegance in a selection of popular colours.

Tile. All the beauty of traditional tiled flooring, without the cost and fussy installation. Our tile vinyl range offers a design to suit every taste, from large format concrete designs to Moroccan tile effects.

**SUSTAINABILITY IS A MALMO™
CORE VALUE, AND AS SUCH
ALL OUR PRODUCTS ARE
AWARDED WITH GREENGUARD,
FLOORSCORE, ISO9001 AND
ISO14001 CERTIFICATION.**

ENVIRONMENTAL RESPONSIBILITY

At Malmo™ we take our social and environmental responsibilities very seriously. We're committed to creating a safe and sustainable environment, and undertake a number of measures to ensure a positive contribution on the world we live in.

MANUFACTURE

At all stages of production – from raw material preparation and processing, through to product manufacture, packaging and transportation - we aim to use minimal amounts of energy (from renewable sources), and keep emissions to the lowest possible levels.

We follow three main principles regarding our waste output – in order of importance, these are:

Any unavoidable waste that is produced in the manufacturing process is repurposed for production of the bottom and middle layer of the product. Our packaging is sustainably sourced and can be reused (wooden pallets) or recycled (cardboard).

DO NO HARM

No toxic chemicals or hazardous substances are emitted during the manufacture, installation or life cycle of Malmo™ products.

Our LVT flooring is incredibly hardwearing and low maintenance, offering a significant usage lifespan backed with up to 25 years warranty. Designed to last, it also requires no repair or upkeep that involves oils, chemicals, sanding or other product usage or potential chemical emissions.

PHTHALATE FREE

Phthalates are used as plasticisers for many products, including flooring, to make plastics more flexible. This flexibility is a fundamental characteristic of LVT flooring, however Malmo™ is completely phthalate free, instead using the same plasticisers that are safe for use in food containers and young children's toys. This ensures healthier living spaces, and enables our customers to achieve higher standards of sustainability and fulfil the requirements of green building certifications such as BREEAM, WELL and LEED.

For further information please visit:
malmoflooring.com/environment-and-sustainability

BREEAM WELL™

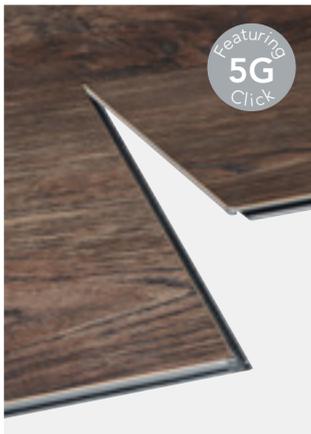

RIGID

Quick and easy fitting and smart styling combine with hardwearing performance and a whole host of clever features to make our Rigid vinyl flooring a real favourite with DIY fans and commercial contractors alike.

With four great formats to choose from, our Senses and Comfort Rigid ranges make a stunning floor easy to achieve.

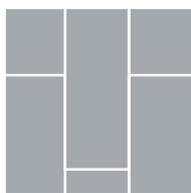

Both Malmo™ Rigid flooring collections utilise the advanced Välinge 5G installation system, making it fast and simple to fit. Even if you're working in tricky or restricted spaces, you can easily achieve a perfect finish as the push down end joints need less positioning space, so there's no need to remove doors whilst fitting. 5G also provides stronger and more stable end joints compared to many other fitting systems.

Available in 4 styles

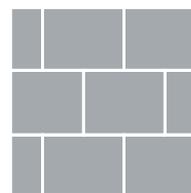

Multi-width

Wide Plank

Narrow Plank

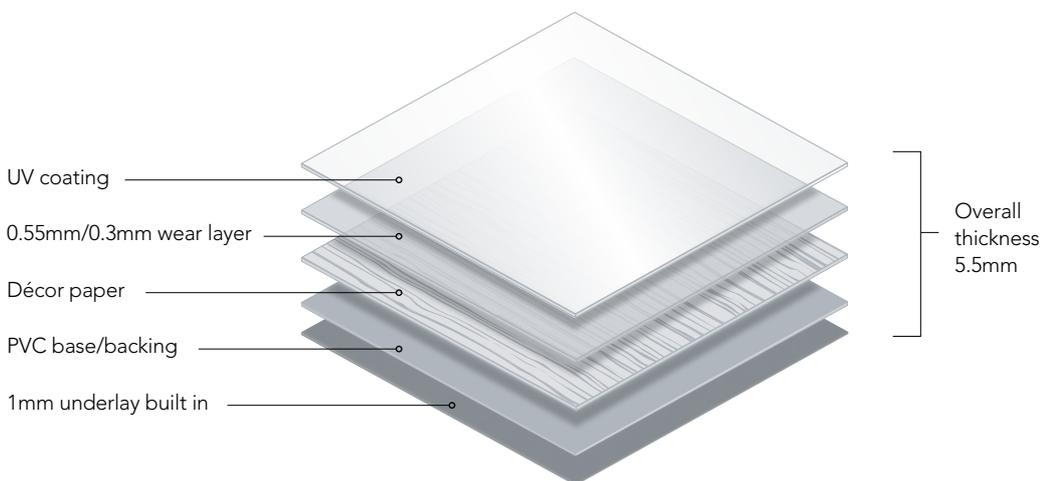

Tile

The Senses collection utilises inline Registered Embossed technology to create the authentic look and feel of wood across a broad palette of designs in planks up to 1830mm long. With a 25 year domestic warranty thanks to the 0.55mm wear layer, there is no compromise on performance.

The Comfort collection offers beautiful woodgrain designs in wide 220mm x 1500mm planks, as well as a narrower 176mm x 1220mm format, allowing you to choose a style that best suits your space. In addition, six tile designs create the look and feel of real stone and ceramic to complement both classic and contemporary interiors. All Comfort products are available with a 15 year domestic warranty.

Malmo™ Rigid flooring has an overall thickness of 5.5mm, which includes a 1mm underlay already attached - eliminating the cost and fuss of installing it separately. With a 0.3mm wear layer for all planks and tiles in the Comfort collection, you can be sure of a hardwearing and durable floor suitable for domestic or commercial use. The Senses collection features an even thicker 0.55mm wear layer; reflected in the enhanced 25 year domestic (15 year commercial) warranty.

STICKDOWN

Freedom

Malmo™ Freedom is an incredibly versatile vinyl flooring ideal for use in conservatories, new builds and commercial areas. Available in three classic formats with a broad colour palette, Freedom offers a stylish solution without compromising on performance. All designs in the Freedom collection feature a 0.55mm wear layer and aluminium oxide coating, making them suitable for both residential and commercial use.

Malmo™ Freedom has magnificent sound absorbing qualities, and is warmer underfoot than wood, laminate or ceramic. A fully adhered installation system provides a more stable floorcovering, giving greater flexibility than a click installation. For example, it can be installed underneath heavy furniture such as kitchen cabinets; it doesn't require expansion gaps around the edge of a room; and it can even withstand the variations in temperature and direct sunlight experienced in conservatories and rooms with bi-fold doors or skylights.

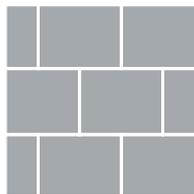

Available in 3 styles

Herringbone

Plank

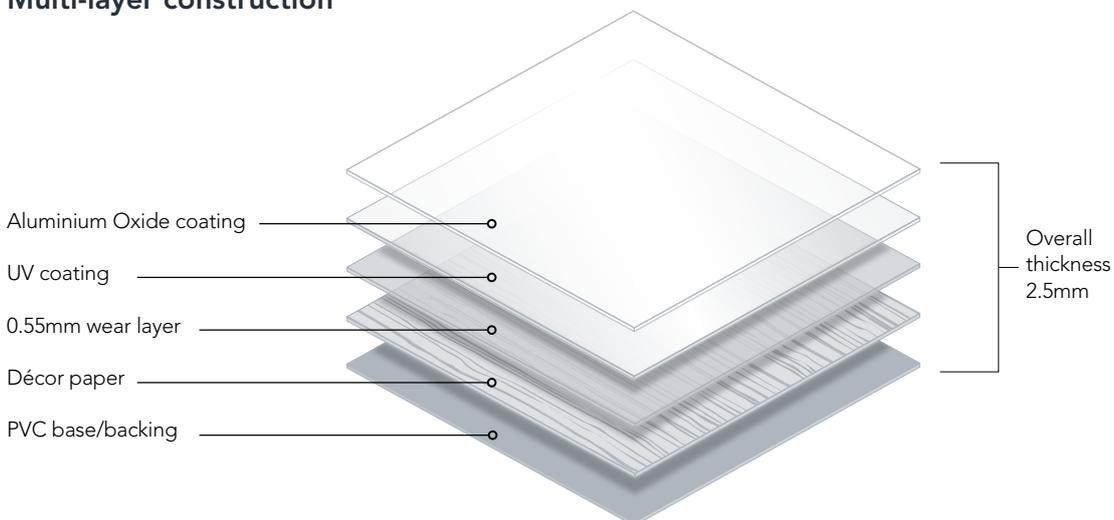

Tile

The popular Herringbone pattern offers classic styling with a smart modern twist, and is available in a choice of three contemporary colours to bring character and elegance to any interior. The Plank collection offers a multitude of 15 beautiful woodgrain designs, including classic oak, ever-popular greys, warm rich hues and cool neutral shades; whilst the Tile collection features large format concrete designs that can be laid in a grid or staggered pattern, as well as statement Moroccan styles.

The versatility of stickdown vinyl flooring opens up huge scope for creativity, including the ability to mix and match designs; particularly useful when zoning open plan living areas by using tile in one area and plank in another with no need for a transition strip. You can also choose to use one design throughout the home with no need for transition strips in doorways, ensuring an effortlessly sleek flow between rooms.

Competitively priced and boasting a 25 year domestic warranty (15 year commercial), what's not to like about Malmo™ Freedom?
